

# Capture 3 Years of Sun... in Just 9 Days

*Super Acceleration UV  
Weathering Chamber*

The SUV-W151 provides manufacturers the fastest accelerated life testing in the industry, allowing manufacturers to make product adjustments sooner in the development process and stay ahead of the competition.

- Fastest correlated acceleration rates in the Industry; 10x faster than typical Xenon chambers
- Proprietary lamp delivers 30x UV energy of natural sunlight (295nm – 450nm)
- Fully programmable (temperature, rainfall, humidity, UV power, and custom cycle)
- Ideal for development testing of pigments, polymer materials, fibers, and plastics

# APPLIED OPTIX™
